4. {In order to answer this question, you will need to have discussed the kind of research experience you will likely have with the faculty sponsor who is agreeing to oversee your work.}

**Describe the research project that you will be participating in during the Niblack Research Scholar year. This should include descriptions of 1) the issue or problem to be studied (including citations), 2) the research methodology needed to address the issue, and 3) the particular skills you intend to learn/master during the course of the project. If your project is part of a larger project within the faculty sponsor's lab, how your part fits into the bigger picture, and what specific tasks you will be responsible for completing (750 words).**
